ABOUT THE COMPANY

Shadeg Quality Shade Sails
We pride ourselves in offering only the best shade sails to our customers at the best price on the market.

Our shades work best to provide protection from fatal UV rays of the sun and winds. A sail shade can prevent the issues of tanning, spotting and other types of sun allergies. They are ideal for gardens, patios and other open areas. They have multiple utilities, for which they are also rented and installed in many nursery schools and crèches, as they provide the children with a shaded and cool atmosphere, and also saves them during the rains.

SHADEG

BEIGE 5X3M

OUR SHADE SAIL FEATURES

VERSATILE FOR ANY OUTDOOR AREA

Provides cool shade by allowing heat to flow and escape through the fabric (as the heat rises) resulting in pleasant cool shade to enjoy outdoors.

- The fabric is designed to be used in tension structures, meaning they retain their stability and striking good looks
- Breathable fabric keeps you cooler
- Mildew, mould and tear resistant
- Easy maintenance and simple to clean with a hosepipe
- Knitted construction with double lock stitches prevents fraying or tearing

Various Colors available

Fabric is Fire Marshall approved

1,500 ZAR

Unlike regular awnings or roofed structures, our shade sails has a very unique stylish design. A shade sail has an artistic design that our customers usually associate with a beautiful kite in the air or that of ship sail. Roofed coverings can become hot and stuffy in warm weather due to the air flow being restricted. But due to the breathable fabric of our shade sails you will still enjoy the fresh air of nature whilst being protected from the harsh sun.

BEIGE 5X3M

Best seller | 5x3 meter NON DIY range
Beige shade sail | 1900 ZAR

We have two shade sail ranges. The DIY range and our NON DIY range.
The DIY range includes everything that you will need to install a permanent shade sail.
DIY range includes: turnbuckle hooks, D shackles, wire rope, mounting brackets and bolts.

NON DIY RANGE: Includes pre attached D shackles

BEST SELLER: 5X5 DIY SHADE SAIL

This is a great option to cover a large outdoor sitting area exposed to harsh sunlight.

2,300 ZAR

SIZEABLE DIY RANGE:

**AFFORDABLE
OUTDOOR SOLUTION**

Shade sails has a very long history and some believe that they were first discovered by the Ancient Egyptians.

The Greeks and Romans used large pieces of fabric to provide shade. The Colosseum in Rome was shaded with large canvas sails pulled into place by Roman sailors. The Egyptians, Greeks and Romans are considered to have engineered the greatest architectural designs in existence and they were the ones who introduce the concept of a shade sail. Unlike the usual and common roofed structure, the shade sail has a feel of creativity and style.

With our sizable DIY range, you will be able to cover just about any outdoor area. Contact us if you require customized orders not mentioned within our products list.

6x3 RECTANGLE DIY SHADE SAIL

Shadeg shade sails has been manufactured with reinforced edges and have undergone vigorous testing to ensure that our clients get only the best quality.

2,100 ZAR

6x5 RECTANGLE DIY SHADE SAIL

Our sizeable shade range is ideal to cover large outdoor play or sitting areas. Create a comfortable social area for your family and friends.

2,500 ZAR

4X4 SQUARE DIY SHADE SAIL

Shade sails have a more artistic design than awnings or regular roof structures. The concept of a shade sail is to create an idea of a kite in the air. Not only does it offer protection from the sun but it serves a decorative purpose as well.

1,900 ZAR

6X6 SQUARE DIY SHADE SAIL

An alternative to a garage or carport would be a large shade sail. Not only will it protect your vehicle from harmful UV rays but will allow free airflow that can be very beneficial in our humid South African climate.

2,700 ZAR

BEST SELLER: 5X5 NON DIY SHADE SAIL

This is a great option to cover a large outdoor sitting area exposed to harsh sunlight.

1,800 ZAR

SIZEABLE NON DIY RANGE:
